

schweigen

PREMIUM SILENT RANGEHOODS

schweigen.

Inspired design and innovative technology make Schweigen silent rangehoods the most powerful and quietest on the market.

The kitchen today is one of the main entertaining areas of the home and the demand for quiet appliances is ever increasing. Schweigen's range of premium silent rangehoods answer this by moving the motor outside, allowing for silent operation.

The highly-efficient German IsoDrive Motor uses all its energy for extraction rather than pushing air up against gravity, efficiently removing steam, smoke, grease and odours from your home... silently. As a result, Schweigen helps protect your appliances and home furnishing from grease build-up.

With a wide range of premium designs, Schweigen has a silent rangehood that's right for your kitchen.

OUTDOOR

The IsoDrive Motor

The German fan and motor assembly is acknowledged as the quietest and most efficient domestic extraction unit available.

However, even the quietest motors and fans still generate noise, so placing them close to the cooking area isn't logical.

Schweigen's patented solution is to take the fan and motor out of the canopy and move them both as far away as possible.

A unique housing with an exclusive anti-water intrusion system allows the fan and motor to be fixed to the roof, under the eaves or to an external wall. There, the little noise that they do generate will vent out into the atmosphere where it blends into the natural ambient noise.

It's ingenious, it works, and it's silent!

Step 1

Choose the right rangehood for your kitchen

Step 2

Choose the right IsoDrive motor size

Step 3

Choose where the IsoDrive motor will be mounted

Selecting your rangehood

Choosing the right rangehood for your kitchen can often be a tiresome task. With many rangehood styles and options available, it can quickly become confusing.

At Schweigen, our three simple steps will guide you through the process of choosing the perfect rangehood for your individual style and kitchen needs.

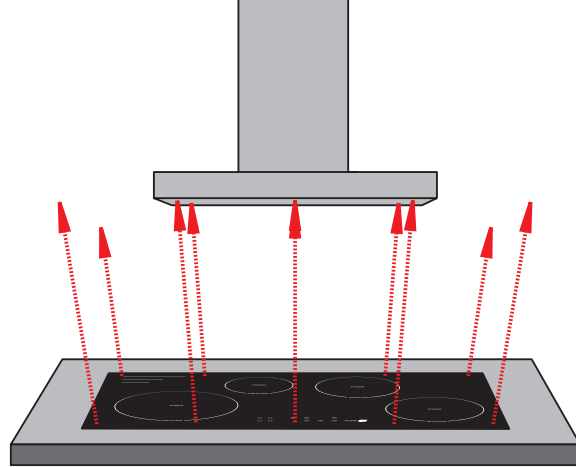

Step 1

Choose the right rangehood for your kitchen

It is important to consider the benchtop and overhead cabinetry depth before installing the rangehood.

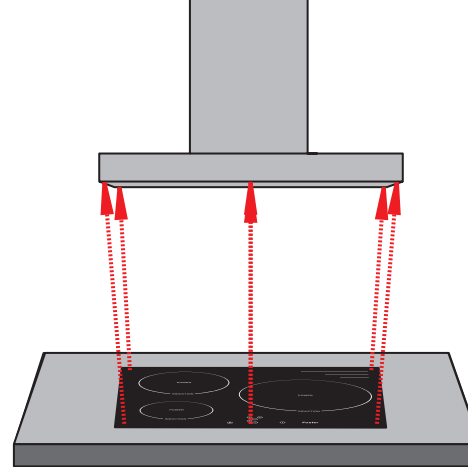

When the overhead cabinetry is constructed and installed deeper than standard, ensure the rangehood is installed as close to the front as possible.

With greater coverage over the cooking surface, you will increase the extraction performance of the rangehood.

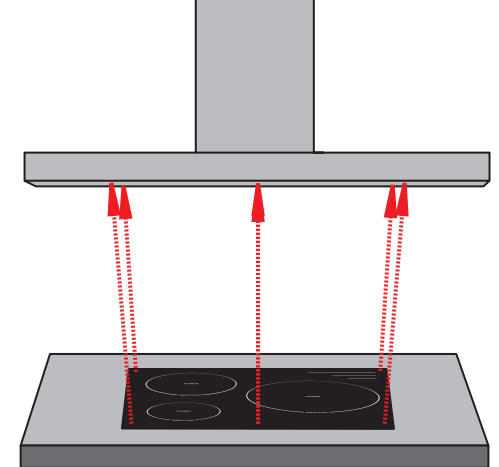

INADEQUATE

Rangehood smaller than the cooking area.

ADEQUATE

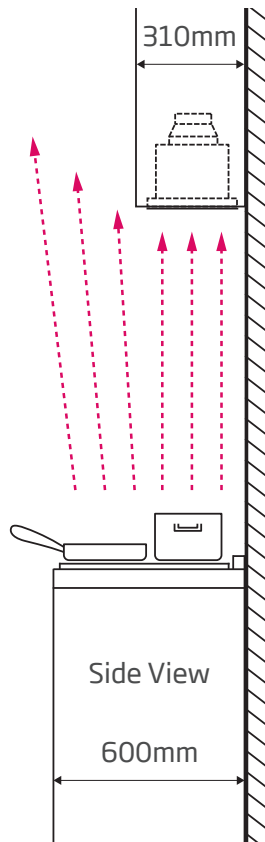

Rangehood equal to the cooking area.

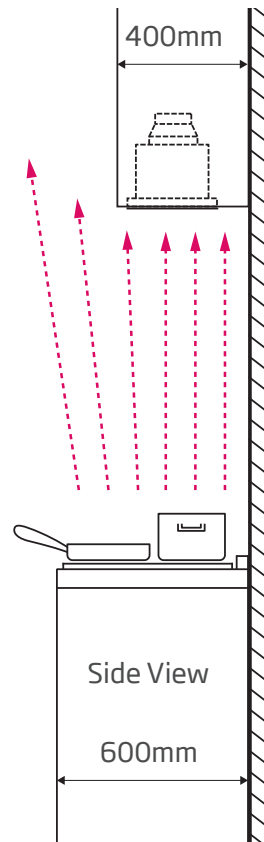

OPTIMAL

Rangehood bigger than the cooking area.

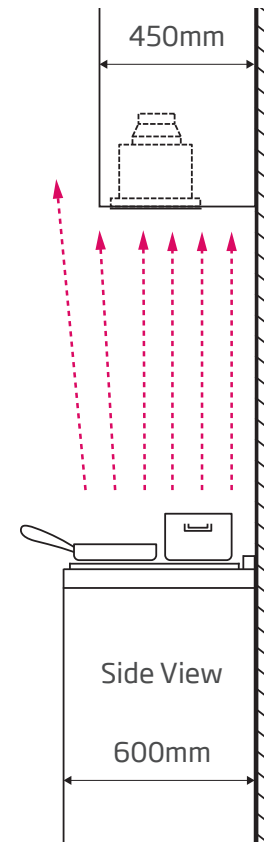

STANDARD

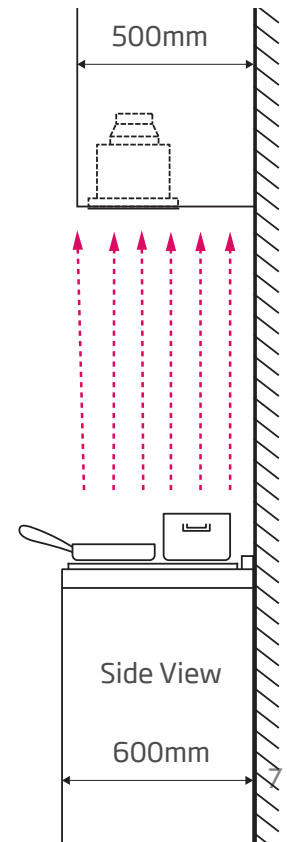

GOOD

BETTER

BEST

Step 2

Choose the right IsoDrive motor size

The type of motor a Schweigen Silent Rangehood will require depends on the level of extraction the user demands from the rangehood. This all depends on the type of food you cook and the amount of cooking you undertake. A rangehood with sufficient power will ensure that all smoke, steam and odours are removed from your kitchen. This guide will help you choose the right motor configuration.

MINIMAL COOKING – STANDARD EXTERNAL MOTOR - (S1)

- 650m³/hr airflow
- Energy efficient
- German manufactured IsoDrive motor
- The motor housing is made from ASA, the most durable of plastics in direct sunlight.
- The electrics are totally concealed and not affected by the weather.
- 150mm flexi ducting (6m), solid roof extension pipe and bell housing.
- 10 year warranty
- Types of installation: roof, wall and eaves

LIGHT COOKING – STANDARD EXTERNAL MOTOR - (ST)

- 900m³/hr airflow
- Energy efficient
- German manufactured IsoDrive motor
- The motor housing is made from ASA, the most durable of plastics in direct sunlight.
- The electrics are totally concealed and not affected by the weather.
- 200mm flexi ducting (6m), solid roof extension pipe and bell housing.
- 10 year warranty
- Types of installation: roof and wall

HEAVY COOKING – POWERFUL EXTERNAL MOTOR - (SP)

- 1600m³/hr airflow
- Energy efficient
- German manufactured IsoDrive motor
- Motor housing is powder coated galvanized steel, which can be painted.
- The electrics are totally concealed.
- 200mm flexi ducting (6m), solid roof extension pipe & bell housing.
- 10 year warranty
- Types of installation: roof and wall

SUPREME COOKING – TWIN POWERFUL EXTERNAL MOTOR - (SP2)

- 3000m³/hr airflow
- Energy efficient
- German manufactured IsoDrive motor
- Motor housing is powder coated galvanized steel, which can be painted
- The electrics are totally concealed.
- 200mm flexi ducting (6m), solid roof extension pipe and bell housing, Y joint may be required
- Types of installation: roof and wall * (restrictions apply for wall installation)
- This system is primarily used with BBQ and Ceiling Mount Rangehoods

ULTIMATE COOKING – EXTREME EXTERNAL MOTOR - (SE)

- 3200m³/hr airflow
- Energy efficient
- German manufactured IsoDrive motor
- Motor housing is powder coated galvanized steel, which can be painted.
- The electrics are totally concealed.
- Motor comes with 250mm flexi ducting (4m), solid roof extension pipe, Y-joint (250x200x200mm), 2x 200mm flexi ducting (1.5m)
- Types of installation: roof and wall * (restrictions apply for wall installation)
- This system is primarily used with BBQ and Ceiling Mount Rangehoods

Step 3

Choose where the right IsoDrive motor will be mounted

Depending on the size of the motor chosen, the IsoDrive motors can be mounted on roofs, walls, eaves.

ROOF MOUNTED

WALL MOUNTED

EAVE MOUNTED

CEILING MOUNT RANGEHOODS

CC-SURF2S

The Surf ceiling mount is designed to be installed into a false ceiling or bulkhead, over a kitchen island. It is the sleek solution for over an island or peninsula benchtop.

- Easy to use remote control
- 4-speed levels
- Perimeter aspiration
- Delay timer with auto shut-off
- Six LED lights
- Dishwasher safe aluminium filters
- 5-year warranty on canopy
- 10-year warranty on motor

Motor options:

SE - Extreme External Motor (3200m3/hr)

Canopy Size:

1300mm wide x 800mm deep

CC-INARTS

The Inart is designed for the most demanding semi-professional kitchens. With its generous dimensions and coherent power, it is the ideal ceiling rangehood for kitchens with large cooking areas.

- Glamorous stainless steel 'cloud' with generous dimensions, substantial power and intense draw that employs perimeter extraction
- 4-speed levels
- Perimeter aspiration
- Delay timer with auto shut-off
- Innovative wide-angle LED lighting system
- Dishwasher safe Aluminium filters
- 5-year warranty on canopy
- 10-year warranty on motor

Motor options:

SP - Powerful External Motor (1600m3/hr)

SE - Extreme External Motor (3200m3/hr)

Canopy Size:

2000mm wide x 1000mm deep

CC-PARA2W, CC-PARA3W, CC-PARA4W CC-PARA2S, CC-PARA3S, CC-PARA4S

The Paradigma is the first modular suction system designed to go unnoticed in the kitchen ceiling with its aesthetic similar to a ceiling light. Paradigma creates an atmosphere of light in the kitchen with both suction and lighting spots with the same design and appearance.

- With the flexibility of this design, you can create your configurations of 2, 3 or 4 units with stainless steel or white finish
- 4-speed levels
- Perimeter aspiration
- Delay timer with auto shut-off
- Innovative wide-angle LED lighting system
- Dishwasher safe Aluminium filters
- 5-year warranty on canopy
- 10-year warranty on motor

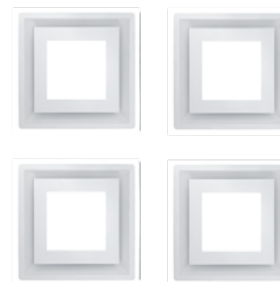

Motor options:

SP - Powerful External Motor (1600m3/hr)

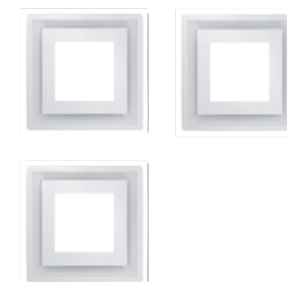

SE - Extreme External Motor (3200m3/hr)

Canopy Size:

Single unit: 360mm wide x 360mm deep

ON-BOARD MOTOR RANGEHOODS

Powerful extraction for any application. On-board motor rangehood options by Schweigen.

Installing a remote motor is not always achievable. For these applications, Schweigen offers traditional on-board motor rangehood options with the same modern design and powerful extraction characteristics you'd expect from any Schweigen rangehood.

Contemporary Undermount Design

Schweigen's on-board stainless steel rangehoods integrate seamlessly into kitchen cabinetry and will look beautiful in any modern kitchen.

Powerful Extraction

The powerful multiple speed motors efficiently extract steam, smoke and odours resulting in a fresh, hygienic kitchen.

Easy to Maintain

Schweigen's high-quality filters are simple to remove and dishwasher safe, while the main body of the unit can be easily wiped free of dirt and grime.

Schweigen effortlessly removes steam and odours from your bathroom... silently.

This is done by installing the motor outside the house.

Schweigen, the makers of New Zealand's first silent kitchen rangehoods, now offer a range of powerful bathroom extraction fans featuring the same silent technology.

The Schweigen Silent Bathroom Fan range removes steam and odours in seconds, preventing condensation and protecting your bathroom investment. And with a range of modern vent styles, Schweigen will compliment any bathroom design.

But they're not only for bathrooms. The Schweigen Silent Bathroom Fan range is the perfect solution for removing odours or preventing condensation in laundries, offices and garages too.
